How High On Life Was Born

Hello, beautiful people!

I'm Jijo, **a movement artist** and the founder of HIGH on Life and the AANMAA Movement Collective.

Through movement, I've been creating experiences with people that help us reconnect with our bodies, express ourselves freely, and discover the joy of simply being alive.

I've also been to **many festivals**, teaching movement and watching people dance, laugh, connect and celebrate through the night. But I often noticed that people needed alcohol or substances to truly let go.

Then there were **retreats**. Everything was quiet, structured and deeply spiritual. I always felt there was something beautiful missing in between. I wanted to create a space where you could dance like nobody is watching, play like a child, create freely, connect deeply and feel completely alive. A space where you don't need anything outside of yourself to experience joy.

That's how the **idea** of HIGH on Life was born.

And it is brought to life through the **AANMAA Movement Collective**. A close-knit circle of friends, artists, and facilitators who share a belief that life is meant to be felt, explored and celebrated.

— Jijo (Founder, HIGH on Life & AANMAA Movement Collective)

Meet our Official **Spirit Animal**

The Magical Dragonfly

A dragonfly begins its life underwater, as a larva, spending months growing in a world completely different from the one it is destined to enter.

Then, one day, it slowly crawls out of the water and encounters the sun for the very first time. Exposed to its warmth and intensity, it endures hours of transformation as its body slowly changes and its wings begin to emerge.

And then, **magically**, it takes flight.

Just like the dragonfly's four wings work together in an infinite rhythm to create its magical flight **without ever needing to learn how**. When Movement, Nature, Art and Playfulness come together, they create the **ALIVENESS** we need to live life at its highest. And, that is when we take flight.

3-Day Happenings

Movement & Dance

Move, fight, flow, balance and discover what your body can do when you stop overthinking every move.

Play & Challenge

Balance boards, slacklines, combat, games and the kind of challenges that make you forget everything else for a while.

Art & Creation

Fold it. Shape it. Paint it. Write it. Get your hands busy and see what comes out.

Sound & Expression

Listen deeply, move freely, use your voice and let out the things you usually keep inside.

Connection & Community

Meet strangers. Start conversations. Share a little more. Leave with people who no longer feel like strangers.

Special Spaces

Nine corners of the festival created for the parts of you that don't always get space in everyday life.

Special Spaces

Spaces across the festival for the things you want to do, but don't always get to in everyday life.

Breathing Zone

The place you step into when you need a pause. Slow down, step away from everything and just breathe.

Screaming Zone

Sometimes you just need to let something out. Here, you can use your full voice and leave some of that built-up tension behind.

Connection Bench Area

Sit next to someone you don't know. Start a conversation. You might walk away with a new friend.

Combat Zone

A safe, playful space to test your strength, challenge yourself and engage with others through controlled movement.

Slackline Area

Walk the line, lose your balance, find it again. A simple challenge that keeps bringing you back to the present.

Balance Board Area

Step on, wobble, adjust and try again. A quick challenge for your balance, coordination and focus.

Skimboard & Balance Zone

Get on the board and figure it out as you move. A playful way to challenge your balance and trust your body.

Painting Zone

Take what's inside your head and put it on paper. No rules, no perfect final result, just your imagination taking over.

The Rage Circle Zone

A space to drop the mask, move through what you're holding inside and finally let the emotion out.

PLAY

MOVEMENT

ART

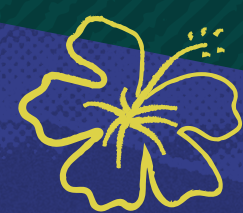

NATURE

Immersive Experiences.

Experience things you've never tried,
things you've forgotten you love & things
that might surprise you.

Bachata Dance

A playful way to move, connect and follow the rhythm with another person. You don't have to get the steps perfect. Just get moving.

Calisthenics

Your body is all you need. Explore strength, mobility and movement using the one tool you've had with you all along.

Movement Exploration

There's no right move or wrong move. Just listen to your body and see where it wants to go.

Movement Lab

Move through rhythm, play and expression until your body starts doing things your mind would never have planned.

Mixed Martial Arts

A controlled space to explore strength, focus and movement while discovering a different kind of confidence.

Silambam

Pick up the traditional Tamil bamboo stick and see how much rhythm, focus and coordination it asks from you.

Sound Journey

Close your eyes and let sound do its thing. Somewhere between vibration, music and stillness, your mind may finally slow down.

Mask Making

Make a mask with your hands and see what happens when you get playful with the parts of yourself you usually keep hidden.

Paper Making

Take something old and turn it into something new. Slow, hands-on and strangely satisfying.

Trinet Weaving

Start with simple threads and patterns. Stay with it long enough and watch something completely new take shape.

Dappo Star Craft

A simple, hands-on craft where you make star forms and rediscover the small joy of creating something yourself.

Art Of Origami

One sheet of paper. A few folds. And suddenly, something completely different.

Art Meditation

You don't need to be an artist. Just slow down, draw and let your hands take your mind somewhere quieter.

Upcycling Workshop

Take something old, unused or forgotten and give it another life. Because sometimes, all something needs is a different perspective.

Kolam Craft

Lines, patterns and symmetry come together in this traditional Tamil art form. Simple to begin, satisfying to get lost in.

Clay Modelling

Get your hands into raw earth and make something out of nothing. Messy hands are part of the experience.

Haiku Writing

Say a lot with very little. Three lines might be all you need to capture a thought, a feeling or a moment.

Heart-To-Heart Conversations

No networking. No small talk. Just sit down, speak honestly and listen to another human being.

Men's & Women's Circle

A space to speak, listen and share what it means to be human. No perfect answers needed.

Internal Branding

Look at the stories, values and ideas that shape who you are. Because before you show the world who you are, it helps to know it yourself.

High on life is for you if...

- You've been wanting to try something new.
- You miss doing things just for fun.
- You want to meet people without the awkward small talk.
- You want to move without worrying how you look.
- You want to play like a kid & hesitate as an adult.

For you people, High on Life is a **FESTIVAL!**

You Enter

With a lot on your mind.

What will I do? Will I fit in?
What will people think of me?

After 3 Days

You leave with a lot on your mind too, but.

- The things you did.
- The people you met.
- The memories you made.

**You realise that
life itself can make
you feel high.
And not any
substance!**
